Finance MEC to Welcome 33 Interns

About 33 New Free State Provincial Treasury interns will be welcomed. The interns were selected through recruitment processes, and they are from different districts in the province.

The Department of Treasury, by virtue of its finance mandate which embraces many technical functions, has a dire need for priority and scarce skills. These interns will therefore be placed in various units of the Provincial Treasury where there is more need for priority and scarce skills. These units include fiscal policy, economic analysis, supply chain management, internal audit, accounting services and financial management. This on-job experiential training will be for the duration of a year.

Media is invited to attend.
