GRAP	Generally Recognised Accounting Practice
GAMAP	Generally Accepted Municipal Accounting Practice
HDF	Housing Development Fund
IAS	International Accounting Standards
IMFO	Institute of Municipal Finance Officers
IPSAS	International Public Sector Accounting Standards
ME's	Municipal Entities
MEC	Member of the Executive Council
MFMA	Municipal Finance Management Act
MIG	Municipal Infrastructure Grant (Previously CMIP)
FDDM	Fezile Dabi District Municipality
CBPWP	Community Based Public Works Program
DWAF	Department of Water Affairs and Forestry

**Accounting Officer's Responsibilities and Approval**

I am responsible for the presentation of these financial statements which are set out on page 5 to 46 in terms of Section 126(1) of the Municipal Finance Management Act (Act 56 of 2003), and which I have signed on behalf of the Municipality.

The consolidated annual financial statements have been prepared in accordance with South African Statements of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The consolidated annual financial statements set out on page 5 to 46, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2011 and were signed on its behalf by:

 31/08/2011

**Municipal Manager**  
**Dr. MMV Mongake**  
**BA. Hons; Magister Artium; PhD Economics**

## **ACCOUNTING POLICIES**

### **1. Basis of Presentation**

The annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

These consolidated annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. They are presented in South African Rand rounded to the nearest Rand.

## ACCOUNTING POLICIES

A summary of the significant accounting policies, which have been consistently applied, are disclosed below.

These accounting policies are consistent with the previous period.

### 1.1 Presentation of currency

These consolidated annual financial statements are presented in South African Rand.

### 1.2 Reserves

#### Capital replacement reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus/(deficit) to the CRR in terms of a Council resolution. A corresponding amount is transferred to a designated CRR bank or investment account. The cash in the designated CRR bank account can only be utilised to finance items of property, plant and equipment. The CRR is reduced and the accumulated surplus/(deficit) is credited by a corresponding amount when the amounts in the CRR are utilised.

#### 1.3 Revaluation reserve

The surplus arising from the revaluation of property, plant and equipment is credited to a non-distributable reserve. The revaluation surplus is realised as revalued assets are depreciated, through a transfer from the revaluation reserve to the accumulated surplus/deficit. On disposal, the net revaluation surplus is transferred to the accumulated surplus/deficit while gains or losses on disposal, based on revalued amounts, are credited or charged to the statement of financial performance.

#### 1.4 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

## ACCOUNTING POLICIES

### 1.4 Property, plant and equipment (continued)

Property, plant and equipment is stated at cost less accumulated depreciation and any impairment losses except land and buildings which are revalued at least every five years. Similarly, land is not depreciated as it is deemed to have an indefinite life.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

Land and buildings are carried at revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses in respect of buildings.

Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in surplus or deficit in the current period. The decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The annual depreciation rates are based on the following estimated asset useful lives:

Item	Average useful life
Land	Indefinite
Buildings	30 years
Furniture and Fittings	3 - 10 years
Motor Vehicles	
• Ambulances	5 - 10 years
• Fire engines	20 years
• Buses	15 years
• Trucks and light delivery vehicles	5 - 7 years
• Ordinary motor vehicles	5 - 7 years
• Motor cycles	3 years
Office Equipment	
• Computer hardware	5 years
• Computer software	3 - 5 years
• Office machines	3 - 5 years
• Air conditioners	5 - 7 years
Emergency Equipment	
• Fire hoses	5 years
• Other fire-fighting equipment	15 years
• Emergency lights	5 years

## ACCOUNTING POLICIES

### 1.4 Property, plant and equipment (continued)

Other property, plant and equipment

• Lawn mowers	2 years
• Compressors	5 years
• Laboratory equipment	5 years
• Radio equipment	5 years
• Firearms	5 years
• Telecommunication equipment	5 years

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

#### Impairment

The entity assess at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the entity estimates the recoverable amount of the asset.

If, and only if, the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset shall be reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss shall be recognised immediately in surplus or deficit, unless the asset is carried at a revalued amount in accordance with another Standard of GRAP (for example, in accordance with the revaluation model in the Standard of GRAP on Property, Plant and Equipment). Any impairment loss of a revalued asset shall be treated as a revaluation decrease in accordance with that Standard of GRAP.

An impairment loss recognised in prior periods for an asset shall be reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. If this is the case, the carrying amount of the asset shall, except as described in paragraph .65 of GRAP 21, be increased to its recoverable service amount. That increase is a reversal of an impairment loss.

The increased carrying amount of an asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior periods.

A reversal of an impairment loss for an asset shall be recognised immediately in surplus or deficit unless the asset is carried at revalued amount in accordance with another Standard of GRAP (for example, the revaluation model in the Standard of GRAP on Property, Plant and Equipment). Any reversal of an impairment loss of a revalued asset shall be treated as a revaluation increase in accordance with that other Standard of GRAP.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the asset shall be adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### Derecognition

The carrying amount of an item of property, plant and equipment shall be derecognised:

- on disposal, or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an item of property, plant and equipment shall be included in surplus or deficit when the item is derecognised (unless the Standard of GRAP on Leases requires otherwise on a sale and leaseback). Gains shall not be classified as revenue.

## ACCOUNTING POLICIES

### 1.5 Revaluation of Land and Buildings

Land and buildings are stated at revalued amounts, being the fair value at the date of revaluation less subsequent accumulated depreciation and impairment losses in respect of buildings.

### 1.6 Financial instruments

#### Classification

The municipality classifies financial assets and financial liabilities into the following categories:

- Financial assets at fair value through surplus or deficit - designated
- Held-to-maturity investment
- Loans and receivables
- Available-for-sale financial assets

Classification depends on the purpose for which the financial instruments were obtained / incurred and takes place at initial recognition. Classification is re-assessed on an annual basis, except for derivatives and financial assets designated as at fair value through surplus or deficit, which shall not be classified out of the fair value through surplus or deficit category.

Loans and receivables/payables are non-derivative financial assets/liabilities with fixed or determinable payments that are not quoted in an active market. They are included in current assets/liabilities, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets/liabilities. The municipality's loans and receivables/payables comprise 'trade and other receivables/payables' and cash and cash equivalents in the balance sheet.

#### Initial recognition and measurement

Financial instruments are recognised initially when the municipality becomes a party to the contractual provisions of the instruments.

The municipality classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

Financial instruments are measured initially at fair value, except for equity investments for which a fair value is not determinable, which are measured at cost and are classified as available-for-sale financial assets.

For financial instruments which are not at fair value through surplus or deficit, transaction costs are included in the initial measurement of the instrument.

Transaction costs on financial instruments at fair value through surplus or deficit are recognised in surplus or deficit.

#### Subsequent measurement

Financial instruments at fair value through surplus or deficit are subsequently measured at fair value, with gains and losses arising from changes in fair value being included in surplus or deficit for the period.

Net gains or losses on the financial instruments at fair value through surplus or deficit include dividends and interest.

Dividend income is recognised in surplus or deficit as part of other income when the municipality's right to receive payment is established.

Loans and receivables are subsequently measured at amortised cost, using the effective interest method, less accumulated impairment losses.

Held-to-maturity investments are subsequently measured at amortised cost, using the effective interest method, less accumulated impairment losses.

## **ACCOUNTING POLICIES**

### **1.6 Financial instruments (continued)**

Available-for-sale financial assets are subsequently measured at fair value. This excludes equity investments for which a fair value is not determinable, which are measured at cost less accumulated impairment losses.

Gains and losses arising from changes in fair value are recognised in equity until the asset is disposed of or determined to be impaired. Interest on available-for-sale financial assets calculated using the effective interest method is recognised in surplus or deficit as part of other income. Dividends received on available-for-sale equity instruments are recognised in surplus or deficit as part of other income when the municipality's right to receive payment is established.

Changes in fair value of available-for-sale financial assets denominated in a foreign currency are analysed between translation differences resulting from changes in amortised cost and other changes in the carrying amount. Translation differences on monetary items are recognised in surplus or deficit, while translation differences on non-monetary items are recognised in other comprehensive income and accumulated equity.

#### **Trade and other receivables**

Trade and other receivables are classified as loans and receivables

Accounts receivable are carried at anticipated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year end. Bad debts are written off during the year in which they are identified.

#### **Trade and other payables**

Trade payables are stated at their nominal value.

#### **Cash and cash equivalents**

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and short term deposits in financial instruments, net of bank overdrafts.

#### **Held to maturity**

These financial assets are initially measured at fair value plus direct transaction costs.

At subsequent reporting dates these are measured at amortised cost using the effective interest rate method, less any impairment loss recognised to reflect irrecoverable amounts. An impairment loss is recognised in surplus or deficit when there is objective evidence that the asset is impaired, and is measured as the difference between the investment's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition. Impairment losses are reversed in subsequent periods when an increase in the investment's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the investment at the date the impairment is reversed shall not exceed what the amortised cost would have been had the impairment not been recognised.

Financial assets that the municipality has the positive intention and ability to hold to maturity are classified as held to maturity.

## ACCOUNTING POLICIES

### 1.6 Financial instruments (continued)

#### Gains and losses

A gain or loss arising from a change in a financial asset or financial liability is recognised as follows:

- A gain or loss on a financial asset or financial liability classified as at fair value through surplus or deficit is recognised in surplus or deficit;
- A gain or loss on an available-for-sale financial asset is recognised directly in net assets, through the statement of changes in net assets, until the financial asset is derecognised, at which time the cumulative gain or loss previously recognised in net assets is recognised in surplus or deficit; and
- For financial assets and financial liabilities carried at amortised cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, and through the amortisation process.

#### Derecognition

##### Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised where:

- the rights to receive cash flows from the asset have expired;
- the municipality retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the municipality has transferred its rights to receive cash flows from the asset and either
  - has transferred substantially all the risks and rewards of the asset, or
  - has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the municipality has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the municipality's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the municipality could be required to repay. Where continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of the municipality's continuing involvement is the amount of the transferred asset that the municipality may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the municipality's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

##### Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in surplus or deficit.

### 1.7 Revenue Recognition

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Interest revenue is recognised using the effective interest rate method.

## ACCOUNTING POLICIES

### 1.7 Revenue Recognition (continued)

Government grants are recognised as revenue when all conditions associated with the grant have been met. Where grants have been received but the municipality has not met the condition, a liability is raised.

Amounts received from government and donors for the purpose of acquiring item of property, plant and equipment are also recognised as revenue.

#### Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

### 1.8 Conditional grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

This liability always has to be cash-backed. The following provision are set for the creation and utilisation of this creditor:

Unspent conditional grants are recognised as a liability when the grant is received.

When grant conditions are met an amount equal to the conditions met are transferred to revenue in the Statement of Financial Performance.

The cash which backs up the creditor is invested until it is utilised.

Interest earned on the investment is treated in accordance with the grant conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the Municipality's income it is recognised as interest earned in the Statement of Financial Performance.

### 1.9 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

## ACCOUNTING POLICIES

### 1.9 Provisions and contingencies (continued)

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficits.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
  - the activity/operating unit or part of a activity/operating unit concerned;
  - the principal locations affected;
  - the location, function, and approximate number of employees who will be compensated for services being terminated;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- necessarily entailed by the restructuring; and
- not associated with the ongoing activities of the municipality

No obligation arises as a consequence of the sale or transfer of an operation until the municipality is committed to the sale or transfer, that is, there is a binding agreement.

After their initial recognition contingent liabilities recognised in business combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed.

### 1.10 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

### 1.11 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

## **ACCOUNTING POLICIES**

### **1.11 Irregular expenditure (continued)**

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

### **1.12 Fruitless and wasteful expenditure**

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

### **1.13 Leases**

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment subject to finance lease agreements are capitalized at their cash cost equivalent and the corresponding liabilities are raised. The cost of the item of property, plant and equipment is at appropriate rates on the straight-line basis over its estimated useful life. Lease payments are allocated between the lease finance cost and capital repayments using the effective interest rate method. Lease finance costs are expensed when incurred.

#### **Finance leases - lessor**

The municipality recognises finance lease receivables as assets on the statement of financial position. Such assets are presented as a receivable at an amount equal to the net investment in the lease.

Finance revenue is recognised based on a pattern reflecting a constant periodic rate of return on the municipality's net investment in the finance lease.

#### **Finance leases - lessee**

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

#### **Operating leases - lessor**

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

## **ACCOUNTING POLICIES**

### **1.13 Leases (continued)**

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Income for leases is disclosed under revenue in statement of financial performance.

#### **Operating leases - lessee**

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability

### **1.14 Borrowing costs**

Borrowing costs are recognised as an expense in the Statement of Financial Performance in the period in which they are incurred

### **1.15 Employee benefits**

#### **Short-term employee benefits**

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

#### **Defined contribution plans**

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the entity's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

#### **Defined benefit plans**

For defined benefit plans the cost of providing the benefits is determined using the projected credit method.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan.

Consideration is given to any event that could impact the funds up to end of the reporting period where the interim valuation is performed at an earlier date.

Past service costs are recognised immediately to the extent that the benefits are already vested, and are otherwise amortised on a straight line basis over the average period until the amended benefits become vested.

To the extent that, at the beginning of the financial period, any cumulative unrecognised actuarial gain or loss exceeds ten percent of the greater of the present value of the projected benefit obligation and the fair value of the plan assets (the corridor), that portion is recognised in surplus or deficit over the expected average remaining service lives of participating employees. Actuarial gains or losses within the corridor are not recognised.

## ACCOUNTING POLICIES

### 1.15 Employee benefits (continued)

Gains or losses on the curtailment or settlement of a defined benefit plan is recognised when the entity is demonstrably committed to curtailment or settlement.

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is presented as the net of the amount recognised for a reimbursement.

The amount recognised in the statement of financial position represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses and unrecognised past service costs, and reduces by the fair value of plan assets.

Any asset is limited to unrecognised actuarial losses and past service costs, plus the present value of available refunds and reduction in future contributions to the plan.

### Other post retirement obligations

The entity provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The entity also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

### 1.16 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

Budget information in accordance with GRAP 1, has been provided in an annexure to these financial statements and forms part of the audited annual financial statements.

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed.

Where material accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparative are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Prior year comparatives:

When the presentation or classification of items in the annual financial statements is amended, prior year comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

### 1.17 Significant judgements and sources of estimation uncertainty

In preparing the consolidated annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the consolidated annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the consolidated annual financial statements. Significant judgements include:

## ACCOUNTING POLICIES

### 1.17 Significant judgements and sources of estimation uncertainty (continued)

#### Trade receivables / Held to maturity investments and/or loans and receivables

The municipality assesses its trade receivables, held to maturity investments and loans and receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the surplus makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

#### Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in a note.

#### Post retirement benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 40.

### 1.18 Intangible assets

An asset is identified as an intangible asset when it:

- is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or
- arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the municipality or from other rights and obligations.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

The cost of a separately acquired intangible asset comprises:

- (a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- (b) any directly attributable costs of preparing the asset for its intended use.

An intangible asset acquired at no or nominal cost, the cost shall be its fair value as at the date of acquisition.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

## ACCOUNTING POLICIES

### 1.18 Heritage assets (continued)

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

<b>Item</b>	<b>Useful life</b>
Computer software	3 - 5 years

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss is the difference between the net disposal proceeds, if any, and the carrying amount. It is recognised in surplus or deficit when the asset is derecognised.

### Transitional provision

The municipality changed its accounting policy for intangible assets in 2011. The change in accounting policy is made in accordance with its transitional provision as per Directive 4 of the GRAP Reporting Framework.

Intangible Assets has been recognised at the current market value in an arm length transaction, retrospectively adjusted by the useful life of the assets concerned to its net replacement value.

## ACCOUNTING POLICIES

### 1.19 Use of estimates

The preparation of consolidated annual financial statements in conformity with Standards of GRAP requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the municipality's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated annual financial statements are disclosed in the relevant sections of the consolidated annual financial statements. Although these estimates are based on management's best knowledge of current events and actions they may undertake in the future, actual results ultimately may differ from those estimates.

### 1.20 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP

### 1.21 Segmental information

Segmental information on property, plant and equipment, as well as income and expenditure, is set out in Appendices C and D, based on the International Government Financial Statistics classifications and the budget formats prescribed by National Treasury. The municipality operates solely in its area of jurisdiction as determined by the Demarcation Board.

Segment information is prepared in conformity with the accounting policies applied for preparing and presenting the financial statements.

### 1.22 Research and development expenditure

Research costs are charged against operating surplus as incurred. Development costs are recognised as an expense in the period in which they are incurred unless the following criteria are met:

- The product or process is clearly defined and the costs attributable to the process or product can be separately identified and measured reliably;
- The technical feasibility of the product or process can be demonstrated;
- The existence of a market or, if to be used internally rather than sold, its usefulness to the municipality can be demonstrated;
- Adequate resources exist, or their availability can be demonstrated, to complete the project and then market or use the product or process; and
- The asset must be separately identifiable.

Where development costs are deferred, they are written off on a straight-line basis over the life of the process or product, subject to a maximum of five years. The amortization begins from the commencement of the commercial production of the product or use of the process to which they relate.

Other Assets	189,186	-
	<b><u>5,892,839</u></b>	<b><u>4,137,801</u></b>

As at year-end, Work-in-progress (WIP) contained the following amounts for assets as at year-end not yet delivered/received by the Municipality.

**The following are the assets that makes up the WIP;**

- Computer Equipment	13 514
- Furniture and Fittings	90 708
<b>TOTAL</b>	<b>104 222</b>

**Key Assumptions used to determine the recoverable service amount of assets during the period:**

The municipality conducted a stock-take/asset count, and in this process the assets' conditions were assessed, and it was determined that no assets were identified to be impaired.

No further information is therefore disclosed, as there were no assets impaired during the period under review.

**6. Revaluation reserve**

Consolidated Annual Financial Statements for the year ended 30 June 2011

Notes to the Consolidated Annual Financial Statements

	2011 R	2010 R	
<b>9. Provisions</b>			
<b>Reconciliation of provisions - 2011</b>			
	Opening Balance	Additions	Total
Long Service Awards	3,597,000	1,110,000	4,707,000

**Reconciliation of provisions - 2010**

	Opening Balance	Additions	Total
Long Service Awards	2,945,000	652,000	3,597,000

The provision relates to the Long Service Award obligation for the municipal employees. The actuarial valuation was performed in line with the requirements of IAS 19.

**Amounts recognised in the statement of Financial Performance are as follows:**

Service cost	(647,000)	(514,000)
Interest cost	(337,000)	(279,000)
Expected benefits paid	667,000	653,000
Actuarial gains/(losses)	(793,000)	(512,000)
<b>Net Expenditure recognised</b>	<b>(1,110,000)</b>	<b>(652,000)</b>

**Amounts recognised in the statement of Financial Position are as follows:**

Defined benefit obligation	(4,707,000)	(3,597,000)
Plan Assets	-	-
Funded status	(4,707,000)	(3,597,000)
Unrecognised actuarial (gains) / losses	-	-
<b>Net obligation recognised in the Statement of Financial Position</b>	<b>(4,707,000)</b>	<b>(3,597,000)</b>

**Key assumptions used:**

Assumptions used at the reporting date:

Discount rates used	8.40 %	9.40 %
Salary inflation	7.70 %	7.25 %
Net discount rate	0.65 %	2.00 %

The basis on which the discount rate has been determined is as follow:

The discount rate used in the valuation is our best estimate assumption of a CPI inflation rate, consistent with the gross discount rate, is determined with reference to the difference between the yields on government conventional and index-linked bonds as at valuation date, adjusted by a liquidity risk premium of 0.35%. A 2% margin is added to these estimates to arrive at the best estimate assumption for a salary inflation.

**Notes to the Consolidated Annual Financial Statements**

	2011 R	2010 R
<b>10. Government grants and subsidies</b>		
Equitable share	122,988,417	116,084,001
Financial management grant	1,000,000	750,000
MSIG	750,000	735,000
Government grant (operating)	-	25,247,788
	<u>124,738,417</u>	<u>142,816,789</u>

**Equitable Share**

Current-year receipts	122,988,417	116,084,001
Conditions met - transferred to revenue	<u>(122,988,417)</u>	<u>(116,084,001)</u>
	-	-

The Equitable Share is an unconditional grant and is utilised to assist the municipalities to undertake service delivery.

**Financial Management Grant**

Current-year receipts	1,000,000	750,000
Conditions met - transferred to revenue	<u>(1,000,000)</u>	<u>(750,000)</u>
	-	-

The purpose of the financial management grant is to assist municipalities to implement financial reforms required by MFMA

**MSIG**

Current-year receipts	750,000	735,000
Conditions met - transferred to revenue	<u>(750,000)</u>	<u>(735,000)</u>
	-	-

The fund is used to assist the district in building capacity to perform its functions and stabilise institutional and governance systems as required by the Municipal Systems Act of 2000.

**Changes in level of government grants**

Based on the allocations set out in the Division of Revenue Act, (Act No.6 of 2011), no significant changes in the level of government grant funding are expected over the forthcoming 2 financial years.

**17. Bad debt written off**

**Bad debt**

Trade and other receivables

- 335,020

During the 2008/2009 financial year the District Municipality entered into an agreement with the DPLG to host the HIV/AIDS jazz festival. In terms of this agreement DPLG committed to fund the procurement of Sound and Stage that was used in this event due to the fact that they wanted the International Artist to perform at this event. The procurement was paid for by Fezile Dabi District Municipality and the said payment was to be recovered from DPLG. Council has resolved not to persue this matter further.

**18. Finance costs**

Interest on long term liabilities

3,972,338 4,415,963

**19. Contracted services**

Various Contractors

13,027,768 10,228,149

These payments are contracts which have been entered into during the current and prior financial year.

**23. Retirement Benefit Information**

Councillors and employees belong to two defined benefit retirement funds which are the Free State Municipal Pension Fund and the Councillors Pension Fund governed by the Pension Fund Act of 1956. These Funds are subject to triennial actuarial valuation. The last valuation of the Free State Municipal Pension Fund was performed June 2005. The Free State Municipal Pension Fund, net assets that are available for benefits at 30 June 2005 was R 1 530 775 000.

The actuarial valuation determined that the fund was in a sound financial position. The estimated liability of the funds is R1 308 118 000 which is adequately financed.

No new information was available at balance sheet date.

**24. Going concern**

The consolidated annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

**25. Unauthorised expenditure**

Balance at the beginning of the year	-	281,340

All VAT returns have been submitted by the due date throughout the year.

**30. Actual operating expenditure versus budgeted operating expenditure**

Refer to Appendix E(1) for the comparison of actual operating expenditure versus budgeted expenditure.

**31. Actual capital expenditure versus budgeted capital expenditure**

Refer to Appendix E(2) for the comparison of actual capital expenditure versus budgeted expenditure.

**32. Related parties**

No related party transactions occurred during this financial year.

**33. Risk Management**

**Financial risk management**

The District municipality's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

**Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

The financial liabilities of the District Municipality are backed by appropriate assets and it has adequate liquid resources. The District Municipality monitors the cash projections by ensuring that borrowing facilities are available to meet its cash requirements.

No significant financial risk pertaining to the creditors exists except for mainly operational risks that are not covered in here.

**Notes to the Consolidated Annual Financial Statements**

	2011	2010
	R	R

**33. Risk Management (continued)**

**Interest rate risk**

The District Municipality is mainly exposed to interest rate risk due to the movements in long-term and short term interest rates.

The risk is managed on an on-going basis.

**Credit risk**

Credit risk is the risk that a counter party to a financial asset will fail to discharge an obligation and cause the District Municipality to incur financial loss.

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

**Foreign exchange risk**

The District Municipality does not engage in foreign currency transactions.

**34. Events after the reporting date**

No events took place after the reporting date which has an impact on the Annual Financial Statements.

**35. Deviation from supply chain management regulations**

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the council and includes a note to the consolidated annual financial statements.

Deviations from supply chain management regulations did occur. These deviations were submitted and approved by council. A detailed deviation register is available at the municipality for inspection.

	<b>573,718</b>	<b>(148,000)</b>	<b>425,718</b>

**Other information**

Fully amortised intangible assets still in use: 720,539 252,079

Fully amortised intangible assets still in use consist of:

- Microsoft Office 2007
- ISA Server 2006
- MS Exchange 2003 Server
- Payday Payroll System
- E-Venus

There were no intangible assets that were assessed as having an indefinite useful life.

There are no intangible assets whose title is restricted.

There are no contractual commitments for the acquisition of intangible assets.

**Notes to the Consolidated Annual Financial Statements**

	2011	2010
	R	R

**40. Employee benefit obligations****Defined benefit plan**

The defined benefit plan, to which employees belong, consists of the Free State Municipal Pension Fund and the Councillors Pension Fund governed by the Pension Fund Act of 1956.

The actuarial valuation determined that the retirement plan was in a sound financial position.

**Post retirement medical aid plan**

The Post Retirement Benefit Plan is a defined benefit plan, of which the members are made up as follows:

In-service (employee) members	87	75
Continuation members (e.g: Retirees, widows, orphans)	3	2
<b>Total Members</b>	<b>90</b>	<b>77</b>

The municipality make monthly contributions for health care arrangements to the following medical aid schemes:

- LA Health Medical Scheme
- Bonitas Medical Scheme
- Hosmed Medical Scheme
- Samwumed Medical Scheme
- KeyHealth Medical Scheme

**The amounts recognised in the statement of financial position are as follows:****Carrying value**

Present value of the defined benefit obligation-wholly unfunded	(3,483,000)	(2,834,000)
Service Cost	(321,000)	(347,000)
Interest Cost	(339,000)	(282,000)
Actuarial gains or (losses)	(1,572,000)	(55,000)
Actual benefits paid	72,000	35,000
<b>Net liability</b>	<b>(5,643,000)</b>	<b>(3,483,000)</b>

**Key assumptions used**

Assumptions used at the reporting date:

Discount rates used	9.25 %	9.40 %
Healthcare cost inflation	7.70 %	7.75 %
Net discount rate	1.44 %	1.53 %

The basis on which the discount rate has been determined is as follow:

The discount rate used in the valuation is determined by reference to market yields on high quality corporate bonds as at the balance sheet date. In countries where there is no deep market in corporate bonds, government bonds are used. It is currently market practice to use government bond yields, as the South African corporate bond market is not considered to be sufficiently developed. The currency and term of the government bonds shall be consistent with the currency and estimated term of the post-employment benefit obligations.

The estimated discount rate was set equal to the yield on a zero-coupon government bond with a term of approximately 20 years.

**Notes to the Consolidated Annual Financial Statements**

2011  
R

2010  
R

**40. Employee benefit obligations (continued)**

**Defined contribution plan**

It is the policy of the municipality to provide retirement benefits to all its employees. A number of defined contribution provident funds, all of which are subject to the Pensions Fund Act exist for this purpose.

The municipality is under no obligation to cover any unfunded benefits.

**41. Unspent conditional grants and receipts**

See appendix "F2" for a detailed reconciliation of grants from other spheres of government. The Unspent Grants are cash-backed by term deposits. The municipality complied with the conditions attached to all grants received to the extent of revenue recognised. No grants were withheld during the year.

**Unspent conditional grants and receipts comprises of:**

**Unspent conditional grants and receipts**

Department of Roads, Transport and Police - Fire Fighting Vehicles	-	2,000,000
Department of Health - Relebohile Clinic: Ngwathe Local Municipality	13,503,163	123,632

**Movement during the year**

Balance at the beginning of the year	21,157,111	633,596
Additions during the year	75,702,081	21,157,111
Income recognition during the year	(40,198,074)	(633,596)
	<b>56,661,118</b>	<b>21,157,111</b>

The nature and extent of government grants recognised in the consolidated annual financial statements and an indication of other forms of government assistance from which the municipality has directly benefited; and

Unfulfilled conditions and other contingencies attaching to government assistance that has been recognised.

These amounts are invested in a ring-fenced investment until utilised.

**Notes to the Consolidated Annual Financial Statements**

2011  
R

2010  
R

**42. Operating lease**

The municipality rents photocopy machines from Journey Vehicle & Assets Finance (Bloemfontein) CC, being the major supplier:

- no contingent rent is payable in terms of the lease agreements.
- there is no renewal or purchase options as per lease agreement terms, and the lease escalates as determined in the various lease agreements with the renter; and
- no restrictions are imposed by lease arrangements, with regards to additional debt and further leasing.

The lease agreements is for a total period of 60 months (5 years).

**43. Commitments**

**Operating leases - as lessee (expense)**

**Minimum lease payments due**

- within one year	3,987,439	3,357,630
- in second to fifth year inclusive	1,289,819	5,277,258
- later than five years	-	-
	<b>5,277,258</b>	<b>8,634,888</b>

**44. Non-Compliance: UIF Contributions Act No.4 of 2002**

During the 2010/11 financial year, the municipality did not deduct and pay-over UIF contributions for its full-time Councillors as required by Circular No. 24 as issued by the Provincial Treasury on 22 August 2011.

The non-compliance was remedied as follows;

The municipality raised a creditor as at year end for the total UIF contributions that was due for the 2010/11 financial year as stipulated in Circular No. 24. However, the requirements of Circular No. 24 have been complied with regarding the 2011/12 financial year.
